<b>5 OBJECTIVES of the action</b>	creative educational workshop for children and adults where you can discover the park extra workshops for families- <b>to connect more generations</b> (children, parents, grandmothers, grandfathers, uncles, aunts...) special attention for <b>environmental behavior</b> redirection of the people to the fothpaths cooperation with local people and associations	
<b>6 DESCRIPTION</b>	We started with this workshops in 2003. About <b>one hundred</b> people participate the workshops every year. We prepare this kind of workshops every last friday in summer months. On workshops we try to use all our senses: to observe, to smell, to taste, to hear. The special attention dedicate to connect two or three generations in common work (to explore together, to observe together, to create together...) The older help the younger, and the younger animate the older. Usually we discover different ecosystems in the park (bogs, forests, mountain pastures, wetlands...). We teach people how to observe the nature and how to respect all being in the nature. We also issued a booklet, CD and demo film.
